I love hentai and anime and I really liked this game. I advise authors to release a few more and add more levels.. I'm a crap artist but even so this is absolutely one of the most fun experiences I've had with my Vive so far. Definitely looking forward to what's yet to come in this. Would be nice to see some more variety in caps and finishes in paint, but what's here is really well done and size can be controlled by getting closer to the wall. Well worth the price.. Good game, I am on level 32 after playing non stop hahaha... really good, it is becoming harder and harder each level.

Well thought and designed. Must for the ones who loves puzzles.. Why would you not play this. wasn't what I expected from the name. Name was misleading "Elon Musk Simulator" LMAO... Trap!. The soccer is really cool.....everything else not so much.....I think u should concentrate more on the soccer

The only reason I would recommend this is because the soccer is so good.

---

My mine just melted. Would be good if there was no mouse glitch impossible to play. I think that is a decent tower defence game. Reason why I got is because of two key features

- 1) I am a fan of tower defence I mean who isnt?
- 2) This game weapons and enemies are not OP which is awesome

I bought this game for one reason mainly because Steam Policy says you need to buy "\$5" min to enable to send a friend request.

I think that they should change.

May container spoilers in my opinion

This game has heros you get to only choose one at a time to battle along side with you in the tower defence. There are three in all. I think that this feature is awesome in my opinion

note: The vehicles in the game are so hard until I relised that you need to have the lightning tower that owns them

This is a good game

. This is my favorite game on my Arduboy, and a great puzzle game in general. It's fun and challenging, a very solid and well made game.. Short VN Game I liked it Its your Basic How too Kind of style You Know from How to start fires in campsite How to catch Food How to drive off Bad people When Doing your Job Etc. Whats really Cool though The 3 Paintings Match the 3 girls that Appeared Yellowstone Zion And The Other girl lol Yellow Stone had Volcano on Top of her head Funny Zion Had green flowers as Wreath Like thing And the other one she was Made of rock Her chin was. Welll For ep 1 only VN it was Good I liked it Not too Bad I say I would Recc this to Anyone if your The Out doors type.. This game is a lot fun. it has some of the greatest things of the survival games, such as Ark but the gameplay and controls for Block Survival are very unique. I think this game has a lot of potential to be one of the greatest survival experiences ever.. I'm glad games like this exist, they let us know that the refund system still works as intended.. The scares and atmosphere of the first "night" was awesome. Past that it become a boring game with a lot of back tracking and the entire "creature" story was lame and only got worse to the end of the game. Its a beautiful game but that was about it.
